

Study Information System SIS

The study information environment of Euroacademy is SIS: <https://euro.ois.ee/en/>

Information and notifications concerning the organisation of studies, study visits, practice and other arrangements as well as timetable with the respective changes, times of exams, credit tests and defences as well as other immediate information are delivered to students through SIS.

SIS includes the information about:

- The curricula, academic subjects and syllabi
- Lecturers, students
- Timetable and study groups
- Data on the student's progress and fulfilment of the curriculum
- Assessment results and student's records
- Notifications and important information about the study management including changes in the timetable

SIS account is compulsory to all the students of Euroacademy.

SIS account is created for a student by study department after the matriculation to Euroacademy.

The administrator and user's support of SIS is chief specialist of study department, Kaili Simberg, III floor, room no 317, e-mail kaili.simberg@euroakadeemia.ee.

Following data is needed for the account:

- Name, surname
- E-mail address
- The school/university previously graduated

Rest of the data can be entered by the student later but it is **compulsory to enter the personal identification code** (the 11 digit number on your ID-card), **place of residence in Estonia and Estonian phone number** because it is necessary for Euroacademy as well as for Police and Boarder Guard.

The most important data is the valid ID-code and valid e-mail address. In the first login attempt, your username and password will be sent to that e-mail address, and later on, all the SIS notifications as well.
